

Home Farm Forum Report 2015

The Home Farm Forum has continued to support the residents of Home Farm in the ongoing discussions with developers and landowners in the following areas:

- Adoption of open spaces – since last year, 4 pieces of land have been adopted and commuted sums received, 2 pieces have had agreements signed and 1 further piece of land is in discussion.
- Road Adoption – conversations are being had with developers, their agents and the County Council to move the adoption of Phase 2 roads over to the County Council. Currently these roads are under ownership of the administrators for Coftons.
- Money in Lieu of play has been paid over to the Council allowing both the Recreation Ground Playground to be extended and refurbished and now with more recent funds, further areas can be looked at.

Current activities:

- Village Green – with the support from the Parish Council, work is progressing to have the Village Green made up to standard and adopted by the Council.
- Further Open Spaces – again, areas are being worked on by developers in order for the land to be adopted. The Parish Council are supporting the Forum in this matter and when these areas are up to standard, these will be adopted and added to the ground care contract for the Council.
